

California Environmental Protection Agency

AIR RESOURCES BOARD

presents

GASOLINE DISPENSING FACILITIES, PHASE I and II

Course #340

Enhanced Vapor Recovery (EVR) is here!

As of April 1st 2009 13,000 Gas station were required to have one of the four CARB certified vapor recovery systems installed. This two day seminar presents a complete overview of the gasoline vapor recovery program. The history, certification, and testing requirements are presented. Executive orders, state laws including revisions to the equipment defects list, and permit requirements are discussed. The operational theory, the equipment certified, and installation & compliance inspections are all discussed. Participants will also conduct field inspections at both a balance and an assist station. In-Station Diagnostics (ISD), will be discussed.

July 13, 2010

8:30 AM - 5:00 PM

**Santa Barbara County APCD
260 North San Antonio Rd., Suite A
Santa Barbara, CA**

This special abbreviated version of the 340 Class is being offered as a pre-requisite to Course 267 (ISD) which will be presented on the 14th and 15th
